Product Change Notification

Change Notification #: 108437 - 00
Change Title: Intel® PRO/Wireless 3945ABG Network
Connection Skus: WM3945AGM1WB,
M2WB, RWWB, JPWB
PCN 108437-00,Product Design, EEPROM
Change
Date of Publication: May 05, 2008

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material:	Jul 18, 2008
Date of First Availability of Post-Conversion Material:	Jul 18, 2008

The date of "First Availability of Post-Conversion Material" is the projected date that a customer may expect to receive the Post-Conversion Materials. This date is determined by the projected depletion of inventory at the time of the PCN publication. The depletion of inventory may be impacted by fluctuating supply and demand, therefore, although customers should be prepared to receive the Post-Converted Materials on this date, Intel will continue to ship and customers may continue to receive the pre-converted materials until the inventory has been depleted.

Description of Change to the Customer:

3945 EEPROM change reducing the PLL bandwidth to mitigate spurious noise/jitter from out-of-spec system reference_clock that could negatively impact Wireless cards. This could primarily affect those with motherboards using the ICS, CK505 reference clock.

Customer Impact of Change and Recommended Action:

Customer will receive product with the following changes:

1. EEPROM change
2. New TA# dash

Intel will attempt to deplete pre-conversion material before shipping post-conversion material but there is a possibility of Intel shipping mixed inventory. Therefore, customers will need to manage and migrate to the post-conversion material as soon as possible.

For your information only. No change to form fit or function. No change to Intel Ordering codes.

Milestone dates are estimates and subject to change based on business and operational conditions.
